Dallas Meetings

A New and Better Location

The Community Room in the Richardson Square Mall has served us well for the past year or so. Due to my job, we now have a place with more technical amenities available... like phone lines, a large screen TV, and a projection display which works on wintel computers. The only problem is that the doors lock themselves at about 7:00pm, and the meeting is actually supposed to start at 7:30pm. To get around that problem I am planning on getting a cheap pair of walkie-talkies. I'll leave one outside the front door to contact us inside the building. Another way to get a hold of us once we are in the meeting room is to call us at 972-931-9005 and dial extension 291. If you have any questions, please feel free to contact me at home: 972-713-8660 or at work, 972-931-9005 extension 207, or just ask for Gus. Thanks.

Wondering how to get there? Take the Tollway north from 635. Exit Keller Springs. Take the service to Westgrove, turn left onto Westgrove. Turn north at Addison Road (2nd light). Then go north up Addison Road until you see a 2 story black glass building on the right. Enter the parking lot at one of the arrows and park at the front of the building with the corner cut out of it.

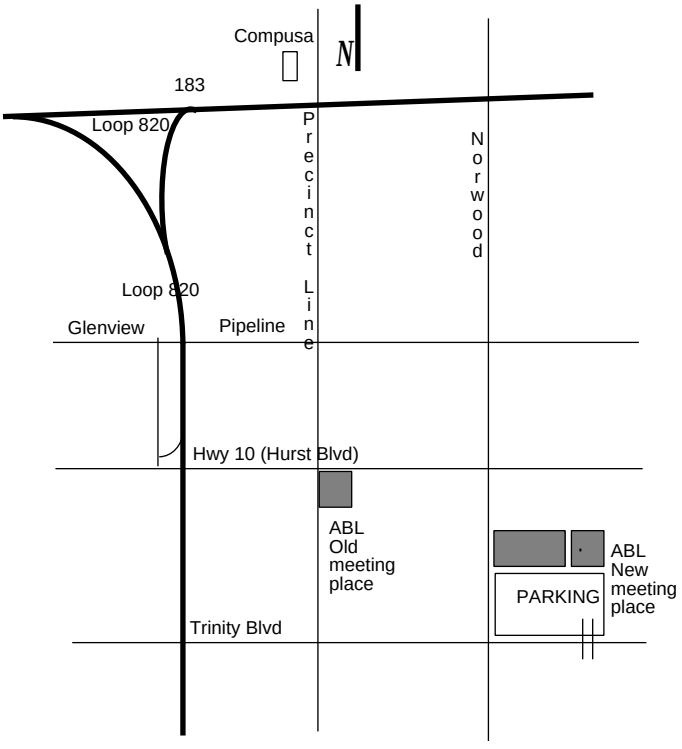
By-The-Loop Meetings

Another New and Better Location

The Amiga by the Loop chapter is once again moving to a new location. Our May meeting will be in the NEW Bell Helicopter Training Facilities at the intersection of Norwood and Trintity Blvd. If you exit Trinity Blvd from 820, you will go about 3 miles to the East. From our old meeting location, it's south across the railroad tracks, then about ½ a mile or so east on Trinity. As you pass the Norwood intersection, you will turn left at the next drive way. You will enter the building directly in front of you and you will see a stairwell and an elevator directly in front of you. Go up to the second floor. We will meet in room 203. See the map below for directions. We hope to see you in May.

...David Owens



Disks of the Month

1241 *AmFTP — The best FTP program available*
Pictures — Mandrill

1242 *MCC_HTMLtext — HTML class for MUI*
PhotoAlbum — For CybergraphX and AGA
VersionWB — "version" command replacement

1243 *Miami_1.20m — The best TCP/IP client software*

1244 *BMPdt — A BMP datatype*
PPLib — Optimized PowerPacker library
SoundDT_v39 — A Sound datatype
TypeFace — Best bitmapped font editor
VersionWB — "version" command replacement

1245 *akLJPEG — A lossless JPEG datatype*
New8N1 — faster replacement for serial.device
Osiris — A nice MPEG viewer

1246 *akJFIF — The best JPEG datatype*
PictureDT-V43 — Best picture datatype

1247 *akPNG — The best PNG datatype*
akSVG — A Superview datatype
